

Are cable trays and hangers galvanized

Overview

Heavy duty cable trays and cable ladders are manufactured from pre-galvanized or hot-dipped galvanized sheet metal, designed to meet ideal environmental working conditions for indoor and outdoor use in commercial or industrial environments with high cable density. Choosing the right galvanized cable tray is crucial for safe and efficient cable management. Understanding how to select the correct tray can save you time and money during the installation process. Each cable tray type performs a different function and comes in various materials such as aluminum. ess steel cable tray is manufactured using AISI 316L (U. The various components are fabricated t improves many steel proper-ties, ncluding corrosion resistance and formability. The alloy also contains molybdenum.
