

Brand new optical modules for sale

Article Overview

You can purchase brand new optical modules from leading suppliers like FS.com, Ecloudlight, and Mouser Electronics, offering a wide range of speeds, form factors, and distances.

Suppliers and Options

FS.com offers a broad selection of optical transceivers, including SFP, SFP28, SFP56, QSFP28, and higher-speed modules supporting 100M to 800G transmission. Modules are compatible with single-mode and multi-mode fiber, covering distances from 30 meters to 160 kilometers. FS provides professional testing, compatibility verification, and 30-day free returns, making it suitable for data centers, enterprises, and cloud deployments . Ecloudlight specializes in optical modules with over 11 years of experience, supplying well-known brands and providing pre-sales and after-sales support. They focus on quality and reliability, offering solutions for 10G SFP+, 100G QSFP28, and other high-speed modules. Loyal partners benefit from free shipping and 24-hour post-sale support . Mouser Electronics carries new optical sensor modules and evaluation boards, such as the MP5490 and Sony Pregius S-based optical sensors. These modules are suitable for integration into small form-factor pluggable (SFP) optical modules and other light-sensing applications, supporting I2C interfaces and ambient light sensing .
