

Brazilian optical receiver SFP

Article Overview

Brazilian SFP optical receivers are widely available from local manufacturers like Padtec, Wolon, and Datacom, offering modules compatible with major networking equipment and supporting various data rates and protocols.

Key Manufacturers in Brazil

- Padtec: Known for DWDM systems and long-distance optical transport, Padtec provides high-performance SFP modules suitable for large carriers and long-haul networks. Their modules are robust, reliable, and supported locally, but pricing can be high for small-scale deployments .
- Wolon: Offers factory-direct SFP/SFP+/QSFP28 modules, often manufactured in China but sold under local branding. Wolon modules are compatible with Mikrotik, Huawei, ZTE, Datacom, Cisco, and Ubiquiti equipment, making them ideal for regional ISPs and integrators. They also provide white-label options and cost savings compared to local distributors .
- Datacom: A local switch vendor providing SFP modules for enterprise and data center applications, often used in conjunction with Brazilian ISPs .

Market Trends

The Brazilian optical transceiver market is growing rapidly, driven by 5G deployment, fiber broadband expansion, and data center investments. The market size is projected to increase from USD 379.54 billion in 2026 to USD 584.53 billion by 2031, with Ethernet protocols leading the market and 41-100 Gbps modules accounting for a significant share . Subsea cable upgrades and metro optics demand in São Paulo...
