

Fiber optic connector box price

Article Overview

Fiber optic connector boxes typically range from \$10 to \$150 or more, depending on type, capacity, and material.

Price Range and Factors

The cost of a fiber optic connector box varies widely based on several factors:

- **Capacity/Core Count:** Boxes can accommodate 4, 8, 12, 16, 24, 48, or 96 fiber cores. Higher core counts generally increase the price due to more complex internal components and larger enclosures .
- **Material:** Common materials include ABS, ABS+PC, PP+glass fiber, or steel. Plastic enclosures (ABS, polycarbonate) are lightweight, impact-resistant, and suitable for indoor or outdoor use, while steel boxes offer superior mechanical strength and tamper resistance, often costing more .
- **Type and Mounting:** Options include wall-mount, rack-mount, splice closure, and outdoor enclosures. Outdoor-rated boxes with waterproofing and UV resistance are typically more expensive .
- **Additional Features:** Some boxes include PLC splitters, multiple splice trays, or adapter interfaces for LC, SC, or MPO connectors, which can affect pricing .

Approximate Pricing

- Small indoor wall-mount boxes (4-12 cores): \$10-\$30 per unit on platforms like Amazon .
- Medium capacity boxes (16-48 cores): \$30-\$80, depending on material and featu...
