

How to rotate the distribution box in Huijue

Article Overview

Rotating a Huijue distribution box requires careful handling, secure mounting, and consideration of electrical connections to ensure safety and structural integrity.

Safety First

Before attempting to rotate the distribution box, disconnect all power sources and ensure the box is fully de-energized. Wear appropriate personal protective equipment (PPE), including insulated gloves and safety glasses, to prevent electrical hazards. Ensure the surrounding area is clear of obstacles.

Determine the Rotation Method

The Huijue HJ-501 distribution box is compact, rectangular, and made of stainless or cold-rolled steel, designed for wall-mount or free-standing installation . Depending on the size and weight:

- Small or medium boxes: Can be rotated manually with two or more people, ensuring a firm grip on the structural frame.
- Large or heavy boxes: Use mechanical aids such as a lift-and-rotate module, hoist, or forklift to safely reposition the box .

Steps for Rotation

- Prepare the mounting surface: Ensure the new orientation has a stable, level surf...
