

Price of Custom-Made Cable Trays for Factory Buildings

Article Overview

Custom-made cable trays for factories typically range from \$15 to \$100 per meter depending on material, design, and order volume.

Factors Affecting Price

Material: Cable trays can be made from stainless steel, aluminum, galvanized steel, PVC, or fiberglass, with stainless steel and aluminum generally costing more due to durability and corrosion resistance . **Design and Type:** Options include perforated trays, wire mesh trays, cable ladders, and trunking. Perforated trays allow ventilation and drainage, while wire mesh trays are lightweight and flexible. Complex designs or large-span trays increase cost . **Customization:** Prices vary with size, load capacity, finish, and accessories. Custom finishes like powder coating or hot-dip galvanization add to the cost. CAD/BIM design support and sample approval may also influence pricing . **Order Volume:** Bulk orders often receive discounts, with price breaks typically at 500m or 1000m. Small pilot runs or prototypes may cost more per meter . **Lead Time and Services:** Faster production, installation support, and logistics for non-standard sizes can affect the final price .

Typical Price Ranges

- Wire mesh cable trays: \$15-\$35 per meter
- Perforated or ladder trays (aluminum or galvanized steel): \$25-\$60 per meter
- Stainless steel or heavy-duty trays: \$50-\$100 per meter These prices are indicati...
