

Price of Nordic cable trays

Article Overview

Nordic cable trays typically range from \$2 to \$25 per meter, depending on material, type, and customization, with bulk orders potentially reducing costs.

Overview of Nordic Cable Trays

Nordic Wire Tray offers the X-Tray series, a premium cable laying system designed for flexibility, high load capacity, and easy installation. These trays are made from high-quality materials suitable for harsh conditions and comply with IEC 61537 standards for cable support systems. The X-Tray system includes wire trays, cable ladders, brackets, and accessories, all customizable to meet specific project requirements.

Pricing Factors

The cost of Nordic cable trays depends on several factors :

- **Material:** Galvanized steel is common and cost-effective, stainless steel is more expensive but corrosion-resistant, aluminum is lightweight and rust-proof, and plastic is budget-friendly but less suitable for heavy loads.
- **Tray Type:** Ladder trays support heavy cables and cost more, while wire mesh or perforated trays are cheaper and suitable for lighter wiring.
- **Surface Finish:** Hot-dip galvanizing, powder coating, or pre-galvanized finishes affect durability and price.
- **Dimensions:** Wider or thicker trays increase material usage and cost.
- **Order Quantity:** Bulk orders can reduce per-meter costs by 20-40%....
