

Types and Prices of Fireproof Cable Trays in Asia

Article Overview

Fireproof cable trays in Asia typically range from \$15 to \$120 per meter, depending on material, size, and supplier.

Price Ranges and Factors

- **Material:** Metal trays (steel or aluminum) are more expensive than plastic or composite alternatives, with prices often starting around \$30-\$50 per meter for standard steel trays and reaching \$100-\$120 per meter for high-grade, powder-coated, or T3-rated fireproof trays . Plastic or fiberglass trays may cost \$15-\$40 per meter .
- **Size and Configuration:** Wider or deeper trays, perforated designs, and specialized shapes for industrial installations increase costs. Custom sizes or OEM designs can further raise prices .
- **Supplier and Location:** Factory-direct purchases from China or other Asian manufacturers often offer competitive pricing, while imported trays may include shipping and customs fees . Verified suppliers on platforms like Alibaba or Made-in-China provide bulk discounts and low minimum order quantities .
- **Fireproof Rating:** Trays with higher fire-resistance ratings (e.g., T3 or NFPA-compliant) are priced higher due to advanced materials and manufacturing processes .
