

UK Metal Cable Tray Price Inquiry

Article Overview

Metal cable trays in the UK typically cost between £30 and £120 per 3-metre length, depending on size, duty rating, and material.

Price Ranges by Type and Size

- Medium Duty Cable Trays: A 225mm wide, 3-metre pre-galvanised steel tray costs around £30-£50 per length, suitable for standard industrial or commercial installations .
- Heavy Duty Cable Trays: A 300mm wide, 3-metre pre-galvanised steel tray can cost £80-£120 per length, designed for high-load or industrial environments .
- Stainless Steel Trays: 304 or 316 stainless steel trays are more expensive due to corrosion resistance and durability, often £100-£200+ per 3-metre length .
- Electrogalvanised or Hot-Dip Galvanised Steel: These options provide additional corrosion protection and typically fall in the £50-£150 range depending on width and duty rating .

Factors Affecting Cost

- Material: Stainless steel is more expensive than pre-galvanised or electrogalvanised steel.
- Width and Depth: Wider trays or those with higher load capacity cost more.
- Duty Rating: Heavy duty trays designed for industrial loads are pricier than medium duty trays.
- Length and Customisation: Standard 3-metre lengths are common; custom cut lengths may incur additional charges .
- Accessories: Covers, bends, and fittings can add to the overall cost....
